CAREER OBJECTIVE

MERN Stack Developer with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in responsive user interfaces, REST APIs, authentication, role-based access, and database-driven applications. Seeking an opportunity to contribute to real-world projects while continuing to grow as a software developer.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend: React.js, React Router, Tailwind CSS, Context API, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, Authentication & Authorization

Database: MongoDB, Mongoose

AI & Generative AI: Generative AI, AI Tools, Prompt Engineering, AI-Assisted Development

Tools & Technologies: Git, GitHub, Vite, VS Code, Postman, npm

Other: API Integration, JWT Authentication, Role-Based Access Control, CRUD Operations

PROJECTS

Eventzo — MERN Event Management & Booking Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a full-stack event management and booking platform using the MERN stack.
- Implemented user authentication and role-based access for users and administrators.
- Built event creation and management functionality along with event discovery and booking workflows.
- Implemented booking management, seat availability tracking, booking status, and cancellation functionality.
- Developed protected routes and REST APIs for secure frontend-backend communication.

BeatFlow — MERN Music Streaming Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Built a full-stack music streaming platform with separate User, Artist, and Admin roles.
- Implemented authentication and role-based authorization for different types of users.
- Developed music upload, editing, and deletion functionality for artists.
- Implemented playlists, liked songs, music search, and an integrated music player.
- Built artist and admin dashboards and REST APIs backed by MongoDB.

Live Demo: beat-flow-vjyb.vercel.app/ | GitHub: Repository

BePremium — E-Commerce Web Application

Tech Stack: React.js, JavaScript, Tailwind CSS

- Developed a responsive e-commerce application using React.js and Tailwind CSS.
- Implemented user authentication, product browsing, and shopping cart functionality.
- Created responsive and reusable UI components for desktop and mobile devices.
- Integrated application state and user interactions to provide a smooth shopping experience.
